## ABOUT ME

I'm a passionate **Software Developer**, experienced in making valuable and innovative contributions to a team. Primarily skilled in **Front-end**, with a portfolio showcasing ongoing commercial and personal projects: [www.andreapiano.dev](http://www.andreapiano.dev)

Currently, I'm working as an IT Analyst at **CFO Solutions**, whilst also spending my spare time on personal coding projects.

*A bit more about myself?*

*I'm also into Holistic Lifestyle, Cooking and Music Production. I've spent years in the UK.*

## MY PROJECTS

### iStellas

Jan 2025 – Now

iStellas aims to be a **social media** for astrology enthusiasts, built with **ReactJS, TypeScript, Next.js 15, Prisma DB, Tanstack Query**, Free Astrology API and **Tailwind**. Users can share Thoughts, follow others, calculate birth charts, check love compatibility, create #Trends, and more. **Multilanguage (i18n)**, fully responsive, and will be soon extended to a **React Native** mobile app too.

*(Note: some features are currently being developed)*
